SELECTED PROJECTS

Portfolio Website | victorpersson.com
Simple portfolio project where I explore web design trends, UI design and UX principals.

`Vue` `GitHub API` `SASS` `HTML`

"Aquatic Dusk to Dawn"
Automated dynamic aquarium lighting system. LED Lights will change in position and intensity corresponding to the position of the sun and incoming API weather data.

`Arduino` `Python` `IOT`

Viapcraft
Minecraft mod in the making, built using the Fabric API. Far from complete, far from perfect but a fun and nostalgic way of learning Java.

`Java` `Fabric API`

TECH

`Adobe Illustrator` `Adobe Photoshop` `HTML` `CSS` `SASS/SCSS` `Python` `JavaScript` `Vue` `React` `C#` `PostgreSQL` `Git` `Arduino` `APIs`

MERITS

Informationsarkitekternas Eventutskott
- During my BA I did voluntary work with our university programme. Taking on the role as cashier me a group of students organized events for other students with the aim of creating better unity within the programme, 2017-2020.

LANGUAGES

English Fluent (C2)

Swedish Native
